Miguel A. Castillo Colmenares

PROFESSIONAL RESUME:

Frontend Developer, Specialized in Vue.js, React.js and Firebase. I characterize myself as a person who loves to discover new technologies, I like to learn and provide technological solutions and reach new heights in the wonderful world of web development

EDUCATION:

Superior Technician in Electricity, Universidad Politécnica Territorial Aragua Federico Brito Figueroa.

Venezuela, Maracay, State Aragua (2014-2017)

WORK EXPERIENCE:

Creándolo Spa: Junior Frontend Developer (marzo de 2021 – Present)

Work Experience: Busy in the realization of Website, Online Stores and Shipping Pagé. I work according to the client's needs, with the help of HTML, CSS, JAVASCRIPT, WORDPRESS, VUE.JS, REACT.JS, SASS, BOOTSTRAP, WEBPACK, ESLINT technology, among others.

SOME PROJECTS CARRIED OUT:

Single-page application to finish the Vue.js course at the platzi academy. This platform allows you to view and know in real time the current price of the 30 most popular cryptocurrencies in the market.

<https://tuexchangecrypto.netlify.app/>

App To finish the Practical course of Vue.js, where we built a mobile wallet where you can monitor your savings.

<https://managemoneycash.netlify.app/>

App created to finish the React.js course, it works to create notes helping you prioritize ideas, projects and to-do lists.

<https://castillomiguel25.github.io/HacerTareas/>

App created to finish the REST API course with JavaScript

where we manage to consume The Movie Database API. You will be able to explore, know millions of movies, know their genre, the user's score, know their actors and much more.
